## PROJECTS

#### flaviorizzoglio.dev

Personal website realized in Astro. GitHub: [🔗](#)

#### Masters of Reinassance

Java distributed implementation of the tabletop game "Masters of Reinassance". GitHub: [🔗](#)

#### ConWeb Alexa

Middleware for connecting and sorting both users and use cases between an Alexa Skill and a Python bot capable of interacting with websites via voice. The aim of the project was ensuring that people with disabilities can use the Internet through their voice. GitHub: [🔗](#)

#### lagiocomotiva.it

Company website. The contribution ranges from backend development to smaller frontend contributions. Link: [🔗](#)

#### edU

Command-line text editor coded in C, based on the historical ed. The aim of the project was to improve the performance of this old editor and add the "undo" command. GitHub: [🔗](#)

## PROFILE

Software Engineer and MSc student in Computer Science and Engineering. Experience in software development, web development and constantly looking to expand my knowledge.

I love sports and I'm always down for a good challenge!
